

Associate of Science in Nursing

67 credits

Specific Program Admission Requirements

- Students must provide evidence of their successful completion of the HESI A2 exam with a score of 80% on each part and a cumulative score of 80% or better (HESI A2 test scores are valid for 2 years). Exams taken more than 2 years from admissions will not be considered.
- A criminal background check is required before being admitted to the program.
- Students are required to submit to a criminal background check and drug testing before they participate in clinical rotations and be in compliance with School of Nursing background check and drug testing policies.

Program Description

The Associate of Science in Nursing degree prepares the students to meet the requirements for the NCLEX-RN examination by the National Council of State Board of Nursing (NCSBN) and meets the standards of the Florida Board of Nursing. This program's mission is to contribute to the health and quality of life of a multicultural society, through academic excellence and offerings that meet the needs of society in general, thus expanding students' personal, professional, ethical, and social growth. Its commitment is to excellence in education, integration of technology, the provision of research experiences, community service, development of specific skills, and the use of information systems and teamwork, through an interdisciplinary health teamwork approach. It promotes the development of the teaching-learning process through critical thinking, clinical judgement, decision making, problem-solving, and collaborative teamwork. These skills are within the context of the ethical-legal aspects of professional relations, and the value of life, health, and dignity of the whole person. The curriculum consists of 67 credits and 990 hours of hands-on laboratory, clinical and simulation hours.

Program Objectives

- Apply the Nursing Process in the Care of Clients.
- Promote a Safe and Effective Care Environment.
- Collaborate in the promotion and maintenance of client health, in inter-disciplinary teams, while maintaining civility and professionalism.
- Provide holistic nursing care that supports the emotional, mental, and social well-being of the client while demonstrating cultural sensitivity.
- Use evidence-based practice to manage physiological integrity of the client across the lifespan.
- Use healthcare technology to promote client health and healing.
- Prioritize client care using clinical reasoning and decision-making skills.

Program sequence will be available at the time of enrollment.

Programmatic Academic Achievement Requirements

- Students must maintain a cumulative GPA of 3.0.
- A minimum grade of B is required for each class.
- Students must pass the laboratory/clinical courses.

Program Curriculum

QYLE 110 or FYIS 101 or FYNE 100*	Attitude Development and University Adaptation or Induction Seminar to University Life or First Year Nursing Experience	3

Notes:

- *This course is only for students who have not taken HESI A2.
- Students must pass the HESI A2 with 80% on each part, 80% cumulative score or better and FYNE 100 with a minimum grade of B.
- A score of 80% on each part and 80% cumulative or above is required on the HESI A2 exam before admission to AGMU's ADN program.
- The ADN program is 67 credits and leads to an Associate of Science in Nursing degree. This program is approved by the Florida Board of Nursing.
- Students must maintain a cumulative GPA of 3.0. A minimum grade of B is required for each class. Students must pass the laboratory/clinical course.
- To be eligible to apply for licensure by the Florida Board of Nursing students must successfully complete the National Council Licensure Examination (NCLEX-RN).
- Students in the ADN program are required to participate in clinical rotations in external health care facilities. Before placement in a clinical rotation, all students must submit to a criminal background check and drug testing and be in compliance with School of Nursing background check and drug testing policies.
